EDUCATION:

- Bachelor of Technology(B.Tech.) - Mechanical Engineering (2020 - 2024)
Madan Mohan Malaviya University of Technology, Gorakhpur, India [CGPA - 7.4/10]
- Intermediate - Mathematics (2018 - 19)
Mishri Lal Inter College [Percentage - 78.00 %]
- High School - Mathematics [Percentage - 79.83 %]

PROJECTS AND HACKATHONS:

My Scholar (ReactJs+Postgres)

- This project intends to scrape Google Scholar's profile and visualize the data. Show more accurate metrics about citations, and publications.

TourstHub (Python)

- Social Networking platform for tourists and guides to interact. Implements visualization of which area has the most frequency of tourists, and tourist reviews about an area. It helps to get more tourists to an area and more contacts between them.

Note Application (ReactJS)

- The project intends to store information digitally with persistent storage. It also has dark mode/light mode integration in it, which is essential for any applications at the present time. It also shows metrics for your note-adding, deleting, and marking complete data.

The Facebook Messenger Hackathon

- Build a messenger bot Using **Python and WIT.AI** to help academics and researchers in their research. The bot scrapes websites(such as Microsoft-academia, Google Scholars, semantics, etc.) and shows results about the topic.

SKILLS:

- **Languages** : C++(Medium)(oops) , Html/Css(Medium) ,JavaScript (Medium)
- **Tools** : Git, Github
- **Environment** : Linux(Ubuntu), Windows
- **Framework**: React js(Beginner)
- **Database**: Postgresql

ACHIEVEMENTS AND LEADERSHIP:

- Contributed to Fossasia organization during **Google Codein'19**, in web development repositories. And completed 5+ tasks during this period to become the top 3 contributors for the organization in the CodeIn program.
- Got 1st runner-up position in the IEEE exam at Birla Institute of Technology - Mesra
